

Microsoft® Refurbishers Preinstallation Kit

WHAT IS THE RPK?

PC Rebuilders & Recyclers is proud to offer Microsoft® Refurbisher Preinstallation Kit (RPK). The RPK is a robust software package for testing hardware, installing and imaging Windows® based operating systems. The RPK also comes with a complete set of drivers.

THE RPK'S FUNCTIONALITY DESCRIPTION:

- 1) The RPK enables and automates the process of creating a hard disk based PC recovery solution so that end-users can restore the PC back to the state they received it.
- 2) The RPK utilizes Windows® Preinstall Environment (Win PE) therefore allowing complete hardware testing before final Operating System (such as Windows® XP, Windows® 7, etc.) installation saving time, materials and money.
- 3) An extensive library of Microsoft® signed Windows® Hardware Quality Labs (over 16 GB) and a potentially unlimited 3rd party drivers repository are leveraged by the RPK's Driver Injection Tools to enable completely automated driver discovery and installation.
- 4) The RPK's imaging transfer process allows transfer of completely installed software sets (e.g. Microsoft® Office, Defender and other applications) often in much less time of other commonly used processes.
- 5) The RPK enables refurbishers to manage fewer images by automatically configuring the Hardware Abstraction Layer (HAL) abstraction. This allows refurbishers to apply an image captured from a specific model and manufacturer of PC to others.
- 6) You can use the RPK to manage all the software resources that you use to refurbish computers, such as Windows distributions, product keys, out-of-box drivers, Windows updates, third-party applications, company logos, and support information. The RPK helps make it easier for you to automate building a computer that can run Windows, by using either the network-based or CD/USB-based methodology.

HOW TO ORDER:

PCRR provides four different ways to purchase the RPK. Please visit our store for additional information and to order the RPK: <http://store.pcr.com>.

If you have any questions please do not hesitate to contact us a sc@pcrr.com.
